

Mass Transportation Authority Primary Route Study

Flint Neighborhoods United -
Meeting

February 3, 2024

98Forward

Today's Agenda

- Project Team Introductions
- Project Overview
- Service Planning Workshop

Introductions

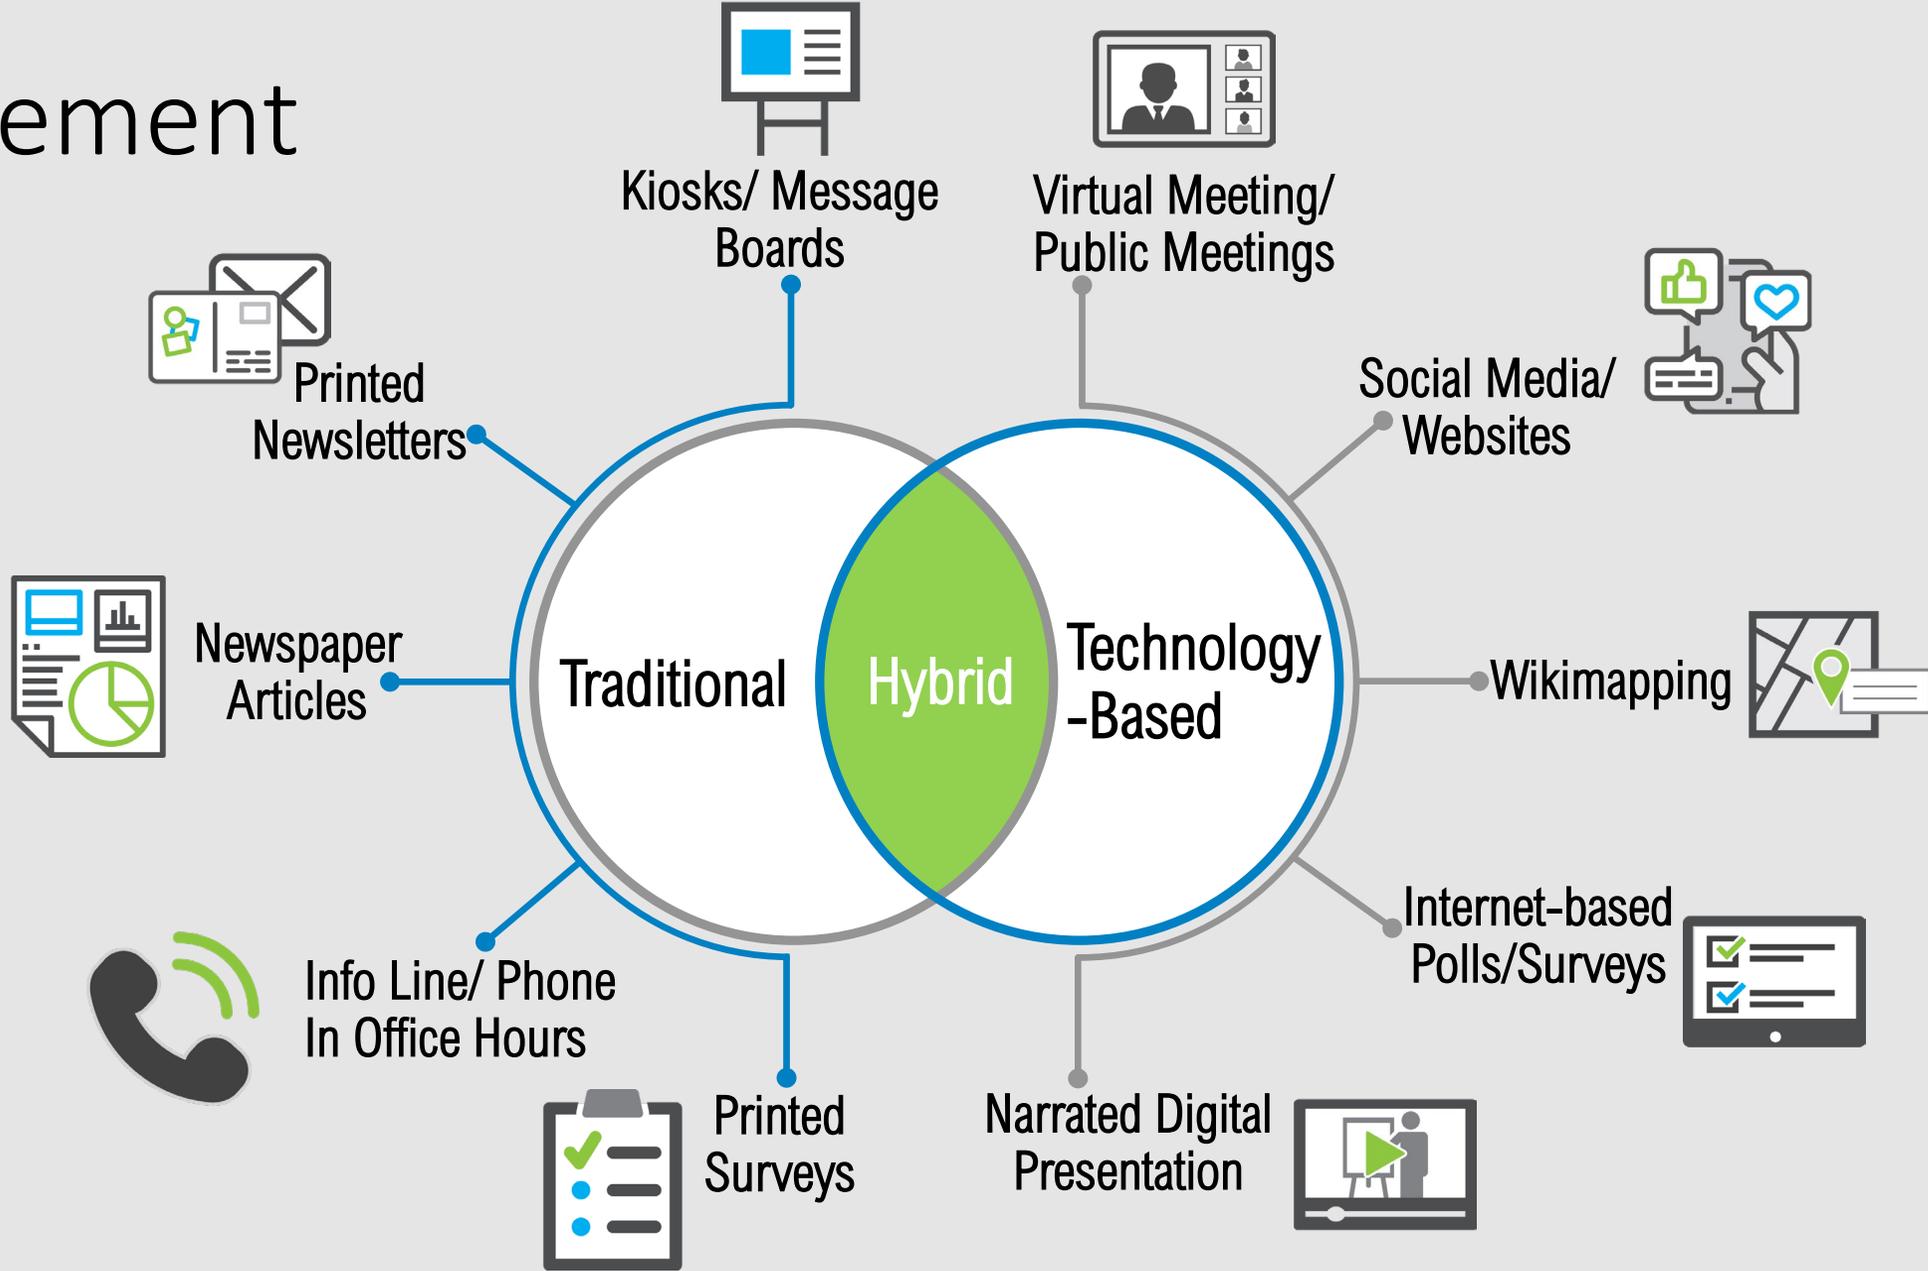

- Project Team

MTA Fixed Route Study Overview

Engagement

Planning Workshop

Conversation Starters:

- What is something that MTA's primary route service does well that you would not want to change?
- Who is not well-served by MTA's Primary Routes? Why?

Workshop Goals

- We want to understand your priorities for how transit should connect riders in Flint.
- Each group will work together to make changes to Flint's existing transit system.
 - Step 1: Identify the group's top three priorities for transit.
 - Step 2: Determine how these needs should be served on the map.
 - Step 3: Report back to the large group for discussion.

Workshop Rules

1. Place string or fill in lines on the map only when your group has agreed on what to do
2. Color in sections of existing routes that your group would like to maintain
3. Place string to show changes to existing routes or to create new routes
4. When adding length to an existing route or creating a new route, your team should decide where to reduce service by a roughly equivalent amount to avoid exceeding current operating costs
5. If time allows, teams will be asked to create an increased funding scenario and add on to existing or create new routes (without reducing service along other routes)
6. Explain your recommendations in the “Notes” section of the map.
7. Designate a speaker to report back to the group.

Planning Considerations

What trip types are most important?

- Examples: Daily commuting, healthcare, groceries/shopping

How often do these trips occur?

- Daily / Weekly / Monthly / Infrequent

What destinations need to be served?

- Where can riders make connections?
